

Assignment 6

Task 1 — Prompt categorization

1. **"Generate a logo for a tech startup using neon colors."**
 - **Type:** Visual / Instructional
 - **Reason:** It asks for an image (a logo) and gives clear instructions (use neon colors).
2. **"Explain blockchain to a 5-year-old."**
 - **Type:** Instructional / Conversational
 - **Reason:** It asks for an explanation (teaching), but in a very simple, child-friendly way.
3. **"You are a UX designer. Suggest improvements to this app layout."**
 - **Type:** Role-play / Instructional
 - **Reason:** It gives the AI a role (UX designer) and asks for advice (improvements).

Task 2 — Refinement Practice

1. **Original:** *"Write a story."*
Refined: *"Write a 500-word short story about a brave girl who discovers a hidden forest, written in a simple, fairy-tale style."*
2. **Original:** *"Make a presentation."*
Refined: *"Create a 5-slide presentation about climate change, using clear headings, bullet points, simple graphics, and one real-world example per slide."*
3. **Original:** *"Draw a picture."*
Refined: *"Draw a colorful picture of a cat sitting on a windowsill during sunset, with orange and pink skies in the background."*

4. **Original:** *"Explain math."*

Refined: *"Explain the concept of fractions to a 10-year-old, using pizza as an example and simple step-by-step language."*

Task 3 — Prompt Design Exercise

1. **ChatGPT (text-based)**

"Imagine you are a life coach. Draft a short letter giving advice to a first-year college student on how to stay positive and productive during tough times."

2. **DALL·E (image-based)**

"Design a logo-style image of an eco-friendly food delivery service, featuring a bicycle, green leaves, and a clean minimal design."

3. **SORA (video-based)**

"Create a short 15-second video clip showing waves crashing on a beach at night, with glowing plankton lighting up the water."

4. **Coding / Logic**

"Write a simple Java program that asks the user for a number and prints whether it is prime or not."

5. **Education / Training**

"Prepare a set of 5 interactive questions to help school children learn about photosynthesis in a fun and easy way."
